EDUCATION

Jai Hind College

Graduation: March 2026

B.Sc. Information Technology · GPA: 9.5/9.8

- Relevant Coursework: Data Structures, DBMS, Operating Systems, Computer Networks, Software Engineering, AI & Machine Learning, Web Technologies, Cloud Computing

St. Xavier's College

May 2023

FY & SY Junior College, Science · 73%

Diamond Jubilee High School

May 2021

Middle School · 97%

PROJECTS / MY WORK

Eggstinction · Solo Developer

June 2026

- A canvas-based tower-defense game: defend the last dinosaur egg from a swarm of predators, with a gacha roulette that decides what your dinosaur becomes. Built with JavaScript, Canvas, and Convex.

savedategg.vercel.app

storemyapi · Solo Developer

February 2026

- Built and published storemyapi: an npm CLI paired with a companion web dashboard for securely encrypting, storing, and syncing API keys and .env secrets to the cloud, with team sharing (read/write roles) and one-command Vercel deploys.

storemyapi.dev

npmjs.com/package/storemyapi

TaskNet AI · Solo Developer

August 2025

- **AI**-powered task-management app inspired by Todoist: uses the OpenAI API for smart task suggestions and Convex for real-time **semantic vector search** over to-dos. Built with Next.js, TypeScript, and shadcn/ui.

tasknet-ai.vercel.app

ParaDoc · Co-Developer

May 2025

- A parallel-reality simulation for medical decision-making, built with Next.js, the Gemini API, and Clerk. Won 1st place at a hackathon.

paradocc.vercel.app

FakeGeotag · Solo Developer

May 2025

- A Python tool that overlays realistic fake GPS geotags onto photos, using ImageDraw for rendering and the Mapbox API for real-world map data.

github.com/aliasgarsogiawala/FakeGeotag

DomainFlip · Solo Developer

March 2025

- Domain-valuation and market-intelligence platform that scores names with rule-based and **Random Forest ML** models, detects resale listings, and tracks availability, using Next.js, Python, and the Gemini API.

domain-flipping.vercel.app

TourSafe · Solo Developer

September 2024

- Platform to help tourists avoid scams, featuring a cab-fare estimator, an emergency SOS button, and a live chatroom, using Next.js, TypeScript, Neon, and Clerk.

ACTIVITIES AND LEADERSHIP

Co-Founder, Tech Horizons Club

Nov 2024 – Present

Co-Founder & Web Developer

- Co-founded a club for tech enthusiasts to learn and grow together; designed and built the club's website end-to-end with Next.js, TypeScript, and Tailwind CSS.

Hackathon Head, Dot Com Club

May 2025 – Present

Hackathon Head

- Lead hackathon planning and execution, overseeing problem statements, event design, participant experience, and judging for college-wide technical competitions.

Sponsorship Head, Dot Com Club

May 2025 – Present

Leader of the Sponsorship Team

- Leading the sponsorship team, securing partnerships and funding to support the club's tech events and initiatives.

Internship, Zillionite

Feb 2025 – Apr 2025

Web Development Intern

- Developed the entire Zillionite website end-to-end (frontend and backend) using Next.js, Tailwind CSS, and MongoDB for user data and purchases, with Razorpay for payment integration.
- Built Python-based **financial models** to generate the platform's **P&L statements and balance sheets**, supporting its wealth-tracking and reporting features.

External Public Relations, The Social and Dramatic Union (SDU)

Jun 2023 – Mar 2024

External PR Team

- Managed external communications and PR for one of Mumbai's most prestigious drama societies; coordinated outreach, press coverage, and audience engagement across multiple productions.

Internship, Overtures Infotech

May 2023 – Jul 2023

Web Development Intern

- Developed and maintained client websites using ASP-based front-end and back-end technologies.
- Implemented on-page **SEO** strategies, conducted keyword research, and used **web analytics** to improve organic search rankings.

SKILLS

Languages: Python, JavaScript, TypeScript, Java, C++, C, SQL, HTML/CSS

Frameworks & Libraries: React.js, Next.js, React Native, Node.js, Tailwind CSS, Flutter, Three.js, GSAP

AI / ML & Data: OpenAI API, Gemini API, PyTorch, TensorFlow, **Random Forest, Power BI, DAX**, REST APIs

Cloud & Infrastructure: **AWS, Azure**, Vercel, Railway, Render, Firebase, Cloudflare

Databases & Backend: MongoDB, PostgreSQL (Neon), Convex, Supabase, Clerk, SuperTokens, Razorpay

Tools & Platforms: Git, GitHub, GitHub Copilot, VS Code, npm, Jupyter Notebook, Docker
